Recently **92.3 FM** benefitted from one of our listener's nominations and the generosity of Mareeba Mazda Mitsubishi's **"Community Drive!"**

Hope Media and **Go Traffic Reports** support our local community station through nationwide sponsorship campaigns!

Through the collaborative efforts of **Christian Media and Arts Australia (CMAA)** and **Hope Media** our local area benefits from both road reports (providing useful information, especially if you're travelling to Cairns) and we receive sponsorship, which adds value to our local radio station!

Go Traffic Reports can be heard weekdays and weekends 6am - 10am (half hourly during peak traffic) and 3pm - 6pm weekdays afternoons too.

Our weekday morning show: **Faith. Family. Culture. with Luke and Susie**, continues to be popular with great feedback received from those who tune in.

Luke Holt also hosted a special program, **Heart of Gold**, an hourly program covering the culture, atmosphere and stories of the Gold Coast, while the Commonwealth Games were in town! **Heart of Gold** broadcasted weekday mornings while the Games were on. ❤️

Our dedicated volunteer and announcer, **John Cuda** works long hours to ensure we have farm fresh, local avocados!

And he also works hard to bring us the **92.3 FM** Saturday Morning Show, Saturday Night Country and many of our Community Service Announcements!

Thank you John! 😊

With more than 900 "Likers" now on **Facebook** (and growing), we have found that platform and **Instagram** and **Twitter** are an important way to keep our listeners updated on Local Community Events, Local Council Information, Weather and Road Alerts, and general local happenings.

Fundraising continues for our planned transmitter upgrade, and a recent shift of our broadcast antenna means slightly improved reception across the Tablelands! Many thanks to our volunteers assisting on the technical front! ☺
